SUBJECT: APPLICATION FOR JUNIOR BACKEND & DATABASE ENGINEER

Dear Manager,

I am writing to express my interest in the Back end Developer position at Daily Eat Delivery Company. As a Software Engineering graduate from Debre Berhan University with strong skills in both front-end and back-end development.Throughout my academic journey and personal projects, I have gained experience in developing web applications using modern technologies such as ASP.NET, Node.JS,Nest.JS, React.js, PostgreSQL, MySQL,MongoDB and RESTful APIs. I have also worked with version control systems like Git and have a good understanding of software development methodologies, database management, and responsive web design.

Through my education and professional experience, I have developed strong computer and organizational skills, including proficiency in Microsoft Office applications, document preparation, data management, record keeping, and effective communication. I am also familiar with modern software technologies,Artificial Intelligence(AI) and have experience working with databases, web applications, and information systems.

My experience working on software projects has strengthened my attention to detail, problem-solving ability, ability to work with confidential information, and capacity to manage tasks accurately and efficiently. I am comfortable working both independently and as part of a team, and I am always willing to learn new systems, procedures, and responsibilities.

I believe my educational background in Software Engineering, technical skills, commitment to accuracy, and strong willingness to contribute would enable me to make a positive contribution to Daily Eat Delivery company.I am particularly interested in the opportunity to apply my IT and computer skills while supporting the organization's administrative and operational activities.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experience align with your needs. I look forward to hearing from you.

Sincerely,
Dessalegn Mulat
Software Engineer
